OPERATIONS/MASK & BUILDING UPDATE

Face coverings will become optional, indoors and outdoors, on NYC public school grounds and on school buses, for all K-12 students and staff with a few exceptions. Please note that while wearing a face covering will no longer be required, anyone who chooses to wear a mask may continue to do so; face coverings will continue to be available through the school's custodian engineer. Face coverings are still required or recommended in the following scenarios:

Isolation -

Student's exposed to COVID-19 must isolate for 5 days and only return to school after they are experiencing no more symptoms.

Face coverings are **required**:

Face coverings after return from 5-day isolation: Anyone returning on Day 6 after a positive COVID-19 diagnosis or after having COVID-19 symptoms without testing is still required to wear a well-fitting mask at all times on school property through Day 10.

Face coverings for Early Childhood programs: The indoor mask mandate is still active for LYFE, EarlyLearn (Infants & Toddlers), 3-K, Pre-K, and 4410 classrooms. Children two years old and older, and all staff in these classrooms, must continue to follow the same face covering requirements whether they are in a district school, CBO, or home-based program. Since children under the age of five are not yet eligible to receive the vaccine, face coverings remain our strongest defense against COVID-19 for early childhood populations.

Face coverings in medical rooms/nurses' offices: Wearing a face covering is still required in medical rooms/nurses' offices, as well as in School Based Health Centers. Nurses will have masks on hand for anyone entering who needs one.

Face coverings are **strongly recommended**:

Following exposure to COVID-19 it is strongly recommended that face coverings be worn when an individual has been exposed or potentially exposed to COVID-19 (in the same room for 15 minutes or longer with a person who tested positive for COVID-19). This face covering should be well-fitting and should be worn for 10 days after the known exposure.

Social Distancing : There are no requirements for social distancing in public spaces, including classrooms, cafeterias and auditoriums, unless the person is returning from isolation. As per NYS guidance, those that are required to still wear face coverings due to returning from isolation should distance when they have to remove their mask for eating.

AN INTRODUCTION TO THE STUDENT HANDBOOK

Northside students returned to school in person on Monday, February 28th. To help students navigate through the change Northside has create a live evolving document that is accessible to all students at all times.
